General Contractor M. BRANDON = N. Indiana Ave. Auburn, Ind.

Lay aside a part of your earnings each week for future needs by opening a savings acct. with Savings, Loan & Trust Co. AUBURN

AUBURN, INDIANA.

Auburn is situated 3 miles west and 2 miles south of center of De Kalb county, 23 miles north of Ft. Wayne.

In winter of 1836-7 an act organizing DeKalb county was passed by the Legislature. A portion of the territory formerly belonged to LaGrange county and a portion to Allen county.

In the year 1836, Wesley Park settled on present site of Auburn, and laid out a town, and in 1837 Messrs. Littlefield of LaGrange county, Gilmore of Steuben county, and Robert Work of Allen county, were appointed commissioners to locate a county-seat, and Auburn was selected.

In laying out the town, Mr. Park laid out two parallel streets, north and south, known as Main and Jackson streets. Park gave a lot to each settler who would build thereon, and in 1837 he and a man named Ogden built a saw mill. L. Ingam built the second cabin in Auburn, and John F Coburn, first county clerk, put up the third. Riley Jacobs and Thomas Freeman were also early settlers.

In October, 1841, Auburn had a population of 72. In 1849 the town contained about 50 houses and 300 inhabitants.

Present court house was built about 1864-5.

A new court house is now proposed.

Railroads—Ft. Wayne & Jackson Branch, Lake Shore and Michigan Southern, intersecting with main trunk line same road at Waterloo.

Vandalia Railroad, Logansport to Butler.

Trunk line B. & O., Chicago to New York, Washington, D. C., and Sea Board.

You Should Know

That cold rain water and soap will remove machine grease from washable fabrics.

That fish may be scaled much easier by first dipping them into boiling water for a minute.

That milk which has changed may be sweetened or rendered fit for use again by stirring in a little soda.

That kerosene will soften boots and shoes that have been hardened by water, and will render them as pliable as new.

That salt will curdle new milk, hence, in preparing porridge, gravies, etc., salt should not be added until the dish is prepared.

That salt fish are quickest and best freshened by soaking in sour milk.

That boiling starch is much improved by the addition of sperm or salt or both or a little gum arabic dissolved.

That by applying kerosene with a rag when you are about to put your stoves away for the summer, will prevent them from rusting. Treat your farming implements in the same way before you lay them aside in the fall.

That a teaspoonful of turpentine, boiled with your white clothes will greatly aid the whitening process.

Hel[illegible]n Case of Accident.

Burns and Scalds. Cover with cooking soda and lay wet clothes over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head. Keep head in elevated position.

Mad Dog or Snake Bite. Tie cord tight above the wound. Suck the wound and cauterize with caustic or white hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

Cinders in the Eye. Roll soft paper up like lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

Stings of Venomous Insects. Apply weak ammonia, oil, salt water, or iodine.

..**Fainting.** Place flat on back; allow fresh air and sprinkle with water. Place head lower than rest of body.

Fire in One's Clothing. Don't run, especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale the flame.

If any Artery is Cut, compress it above the wound. Blood from an artery is red, that from the veins dark.

Suffocation from Inhaling Illuminating Gas. Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also two to four drops tincture nux vomica every hour or two for five or six hours.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it up by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's Apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. Don't Give Up! People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in teaspoonfuls, fresh air, and quiet.

If Choked. Get down on all fours and cough.

Fire from Kerosene. Don't use water, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, tablecloth or carpet.

ll Goods as Represented or Money Refunded. **D. A. HODGE**

BRIEF BUSINESS LAWS.

If a note be lost or stolen it does not release the maker; he must pay it if the consideration for which it was given and amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of a special partnership. The word "limited" in connection with a firm name indicates that a limitation of responsibility for each member is fixed.

Ignorance of the law excuses no one.

An agreement without consideration of value is void.

A contract made with a minor or a lunatic is voidable.

A note obtained by fraud or from a person in a state of intoxication cannot be collected. It is a fraud to conceal a fraud. Signatures made with a lead pencil are good in law. The acts of one partner binds the rest.

"Value received" is usually written in a note, and should be, but it is not necessary. If not written it is presumed by the law or may be supplied by proof.

The maker of an "accommodation" bill or note (one for which he has received no consideration), having lent his name or credit for the benefit of the holder, is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

An indorsee has a right of action against all whose names were on the bill when he received them.

If the letter containing a protest of non-payment be put into the post-office any miscarriage does not affect the party given notice. Notes of protest may be sent either to the place of business or residence of the party notified.

You Should Know

That cold rain water and soap will remove machine grease from washable fabrics.

That fish may be scaled much easier by first dipping them into boiling water for a minute.

That milk which has changed may be sweetened or rendered fit for use again by stirring in a little soda.

That kerosene will soften boots and shoes that have been hardened by water, and will render them as pliable as new.

That salt will curdle new milk, hence, in preparing porridge, gravies, etc., salt should not be added until the dish is prepared.

That salt fish are quickest and best freshened by soaking in sour milk.

That boiling starch is much improved by the addition of sperm or salt or both or a little gum arabic dissolved.

That by applying kerosene with a rag when you are about to put your stoves away for the summer, will prevent them from rusting. Treat your farming implements in the same way before you lay them aside in the fall.

THE LADIES' WORLD

Edited by CHARLES DWYER

THE BEST HOME MAGAZINE PUBLISHED AT 50 CTS. PER YEAR.

It contains more HOUSEHOLD DEPARTMENTS, better SERIALS and SHORT STORIES, clever suggestions for CHILDREN'S ENTERTAINMENT, and more up-to-date FASHION PAGES than any similar publication in America. . . . . .

PUBLISHED BY

S. H. MOORE COMPANY,

23-25-27 City Hall Place, New York City.

Good Stories, Practical Departments for the Housewife and Up-to-Date Fashion Pages for the Home Dressmaker, are Some of the Features which Combine to Make an Ideal Woman's Magazine THE LADIES' WORLD NEW YORK CITY.

THE IDEAL PUBLICATION FOR WOMEN and the HOME

EDITED BY CHAS. DWYER

The Ladies' World

Literary Attractions:

The serials, short stories and verse include the work of the foremost authors of the day, whose names stand for the best quality of bright, entertaining and wholesome writing.

Domestic Science Departments:

These departments constitute one of the strongest features of the magazine. They are conducted by well known authorities on their respective subjects, and are especially helpful because they are always most practical.

Fashions and Dressmaking:

The former dressmaking expert of The Delineator has charge of these pages, and her descriptions of the new fashions and hints on their making prove invaluable to the home dressmaker. All the styles illustrated are the latest and best of the New York and Paris designs.

Special Features:

Especially popular contributions are the beautifully illustrated "Special Feature" articles published each month that entertainingly treat of some historical, biographical or musical subject; the departments dealing with Etiquete and Good Looks; and the pages devoted exclusively to Stories and Pastimes for Children.

Price—50 Cents Per Year:

This small sum secures to the subscribers a beautifully illustrated and printed monthly magazine of from 36 to 48 large sized pages—unquestionably the best and at the same time the cheapest high grade domestic magazine in America.

Subscription Inducements:

Write for 20-page illustrated Premium List describing over 200 different premiums, or send for our Special Terms for Cash Agents.
